For the Transition Period from _____ to _____

Commission File No. 001-36567

Westlake Chemical Partners LP

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

32-0436529
(I.R.S. Employer
Identification No.)

2801 Post Oak Boulevard, Suite 600
Houston, Texas 77056
(Address of principal executive offices, including zip code)

(713) 585-2900
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common units representing limited partnership interests	WLKP	The New York Stock Exchange

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. **Yes** **No**

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). **Yes** **No**

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act) **Yes** **No**

The registrant had 35,198,903 common units outstanding as of April 28, 2021.

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

1. Description of Business and Basis of Presentation

Description of Business

Westlake Chemical Partners LP (the "Partnership") is a Delaware limited partnership formed in March 2014 to operate, acquire and develop ethylene production facilities and related assets. On August 4, 2014, the Partnership completed its initial public offering (the "IPO") of 12,937,500 common units representing limited partner interests.

In connection with the IPO, the Partnership acquired a 10.6% limited partner interest in Westlake Chemical OpCo LP ("OpCo") and a 100% interest in Westlake Chemical OpCo GP LLC ("OpCo GP"), which is the general partner of OpCo. OpCo owns three ethylene production facilities and one common carrier ethylene pipeline (collectively, the "Contributed Assets"). Since the IPO, the Partnership has periodically purchased additional limited partner interest in OpCo. Most recently, on March 29, 2019, the Partnership purchased an additional 4.5% newly-issued limited partner interest in OpCo for approximately \$201,445, resulting in an aggregate 22.8% limited partner interest in OpCo, effective January 1, 2019. The remaining 77.2% limited partner interest in OpCo is owned by Westlake Chemical Corporation.

Basis of Presentation

The accompanying unaudited consolidated interim financial statements were prepared in accordance with the rules and regulations of the Securities and Exchange Commission (the "SEC") for interim periods. Accordingly, certain information and footnotes required for complete financial statements under generally accepted accounting principles in the United States ("U.S. GAAP") have not been included. These interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto of the Partnership included in the annual report on Form 10-K for the fiscal year ended December 31, 2020 (the "2020 Form 10-K"), filed with the SEC on March 2, 2021. These financial statements have been prepared in conformity with the accounting principles and practices as disclosed in the notes to the consolidated financial statements of the Partnership for the fiscal year ended December 31, 2020.

References to "Westlake" refer collectively to Westlake Chemical Corporation and its subsidiaries, other than the Partnership, OpCo and OpCo GP.

The Partnership holds a 22.8% limited partner interest and the entire non-economic general partner interest in OpCo. The remaining 77.2% limited partner interest in OpCo is owned directly by Westlake, which has no rights to direct the activities that most significantly impact the economic performance of OpCo. As a result of the fact that substantially all of OpCo's activities are conducted on behalf of Westlake, and the fact that OpCo exhibits disproportionality of voting rights to economic interest, OpCo was deemed to be a variable interest entity. The Partnership, through its ownership of OpCo's general partner, has the power to direct the activities that most significantly impact the economic performance of OpCo, and it also has the obligation or right to absorb losses or receive benefits from OpCo that could potentially be significant to OpCo. As such, the Partnership was determined to be OpCo's primary beneficiary and therefore consolidates OpCo's results of operations and financial position. Westlake's retained interest of 77.2% is recorded as noncontrolling interest in the Partnership's consolidated financial statements.

In the opinion of the Partnership's management, the accompanying unaudited consolidated interim financial statements reflect all adjustments (consisting only of normal recurring adjustments) that are necessary for a fair statement of the Partnership's financial position as of March 31, 2021, its results of operations for the three months ended March 31, 2021 and 2020 and the changes in its cash position for the three months ended March 31, 2021 and 2020.

Results of operations and changes in cash position for the interim periods presented are not necessarily indicative of the results that will be realized for the fiscal year ending December 31, 2021 or any other interim period. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ materially from those estimates.

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

The COVID pandemic resulted in widespread adverse impacts on the global economy in 2020. The Partnership has not experienced significant disruptions to its business operations in 2020 or during the three months ended March 31, 2021 and does not expect significant disruptions to its business operations resulting from COVID-19. However, the impact that COVID-19 will have on the Partnership's financial condition, results of operations and cash flows cannot be estimated with certainty at this time as it will depend on future developments, including, among others, the timing and logistics with respect to the distribution of vaccines (in the United States, Europe and globally) and the efficacy of the available vaccines (including with respect to the more recent variants of COVID-19) and other treatments, the ultimate duration of the pandemic, geographic spread and severity of the virus, the consequences of governmental and other measures designed to prevent the spread of the virus, the impact on the operation of OpCo's facilities, Westlake, customers, suppliers and other third parties and the timing and extent to which normal economic and operating conditions resume.

Recent Accounting Pronouncements

Reference Rate Reform (ASU No. 2020-04)

In March 2020, the FASB issued an accounting standards update to provide optional expedients and exceptions for applying generally accepted accounting principles to contracts, hedging relationships and other transactions affected by reference rate reform if certain criteria are met. The amendments in this update are effective for all entities as of March 12, 2020 through December 31, 2022. The Partnership is in the process of evaluating the impact that the new accounting guidance will have on the Partnership's consolidated financial position, results of operations and cash flows.

2. Accounts Receivable—Third Parties

Accounts receivable—third parties consist of the following:

	March 31, 2021	December 31, 2020
Trade customers	\$ 20,052	\$ 11,344
Allowance for credit losses	(386)	(315)
	19,666	11,029
Other receivables	36	—
Accounts receivable, net—third parties	<u>\$ 19,702</u>	<u>\$ 11,029</u>

3. Inventories

Inventories consist of the following:

	March 31, 2021	December 31, 2020
Finished products	\$ 2,749	\$ 3,157
Feedstock, additives and chemicals	422	317
Inventories	<u>\$ 3,171</u>	<u>\$ 3,474</u>

4. Property, Plant and Equipment

Depreciation expense on property, plant and equipment of \$22,802 and \$22,753 is included in cost of sales in the consolidated statements of operations for the three months ended March 31, 2021 and 2020, respectively.

5. Deferred Charges and Other Assets

Amortization expense on other assets of \$4,740 and \$3,278 is included in costs of sales in the consolidated statements of operations for the three months ended March 31, 2021 and 2020, respectively.

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

6. Distributions and Net Income Per Limited Partner Unit

On May 3, 2021, the board of directors of Westlake Chemical Partners GP LLC ("Westlake GP"), the Partnership's general partner, declared a quarterly cash distribution for the three months ended March 31, 2021 of \$0.4714 per unit. This distribution is payable on May 27, 2021 to unitholders of record as of May 13, 2021.

Distributions are declared subsequent to quarter end; therefore, the table below represents total cash distributions declared from earnings of the related periods pertaining to such distributions.

	Three Months Ended March 31,	
	2021	2020
Net income attributable to the Partnership	\$ 15,146	\$ 17,747
Less:		
Limited partners' distribution declared on common units	16,593	16,591
Net income in excess of distribution (distribution in excess of net income)	\$ (1,447)	\$ 1,156

Net income per unit applicable to common limited partner units is computed by dividing the respective limited partners' interest in net income by the weighted-average number of common units outstanding for the period. Because the Partnership has more than one class of participating securities, it uses the two-class method when calculating the net income per unit applicable to limited partners. The classes of participating securities include common units and incentive distribution rights. Net income attributable to the Partnership is allocated to the unitholders in accordance with their respective ownership percentages in preparation of the consolidated statements of changes in equity. However, when distributions related to the incentive distribution rights are made, net income equal to the amount of those distributions is first allocated to the general partner before the remaining net income is allocated to the unitholders based on their respective ownership percentages. Basic and diluted net income per unit is the same because the Partnership does not have any potentially dilutive units outstanding for the periods presented.

	Three Months Ended March 31, 2021		
	Limited Partners' Common Units	Incentive Distribution Rights	Total
Net income attributable to the Partnership:			
Distribution	\$ 16,593	\$ —	\$ 16,593
Distribution in excess of net income	(1,447)	—	(1,447)
Net income	\$ 15,146	\$ —	\$ 15,146
Weighted average units outstanding:			
Basic and diluted	35,198,903		35,198,903
Net income per limited partner unit:			
Basic and diluted	\$ 0.43		

	Three Months Ended March 31, 2020		
	Limited Partners' Common Units	Incentive Distribution Rights	Total
Net income attributable to the Partnership:			
Distribution	\$ 16,591	\$ —	\$ 16,591
Net income in excess of distribution	1,156	—	1,156
Net income	\$ 17,747	\$ —	\$ 17,747
Weighted average units outstanding:			
Basic and diluted	35,194,545		35,194,545
Net income per limited partner unit:			
Basic and diluted	\$ 0.50		

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

The amended Partnership Agreement provides that the Partnership will distribute cash each quarter to all the unitholders, pro rata, until each unit has received a distribution of \$1.2938. If cash distributions to the Partnership's unitholders exceed \$1.2938 per common unit in any quarter, the Partnership's unitholders and Westlake, as the holder of the Partnership's incentive distribution rights, will receive distributions according to the following percentage allocations:

Total Quarterly Distribution Per Unit	Marginal Percentage Interest in Distributions	
	Unitholders	IDR Holders
Above \$1.2938 up to \$1.4063	85.0 %	15.0 %
Above \$1.4063 up to \$1.6875	75.0 %	25.0 %
Above \$1.6875	50.0 %	50.0 %

The Partnership's distribution for the three months ended March 31, 2021 did not exceed the \$1.2938 per unit threshold, and, as a result, no distribution was made with respect to the Partnership's incentive distribution rights to Westlake, as the holder of the Partnership's incentive distribution rights.

Distribution Per Common Unit

Distributions per common unit for the three months ended March 31, 2021 and 2020 were as follows:

	Three Months Ended March 31,	
	2021	2020
Distributions per common unit	\$ 0.4714	\$ 0.4714

7. Partners' Equity

On October 4, 2018, the Partnership and Westlake Chemical Partners GP LLC, the general partner of the Partnership, entered into an Equity Distribution Agreement with UBS Securities LLC, Barclays Capital Inc., Citigroup Global Markets Inc., Deutsche Bank Securities Inc., RBC Capital Markets, LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated and Wells Fargo Securities, LLC to offer and sell the Partnership's common units, from time to time, up to an aggregate offering amount of \$50,000. The Equity Distribution Agreement was amended on February 28, 2020 to reference a new shelf registration for utilization under this agreement. No common units were issued under this program as of March 31, 2021.

On March 29, 2019, the Partnership completed the issuance and sale of 2,940,818 common units at a price of \$21.40 per unit through a private placement. TTWF LP, Westlake's principal stockholder and a related party, acquired 1,401,869 common units out of 2,940,818 common units issued in the private placement.

8. Related Party Transactions

The Partnership and OpCo regularly enter into related party transactions with Westlake. See below for a description of transactions with related parties.

Sales to Related Parties

OpCo sells ethylene to Westlake under the Ethylene Sales Agreement. Additionally, the Partnership and OpCo from time to time provide other services or products for which it charges Westlake a fee.

Sales to related parties were as follows:

	Three Months Ended March 31,	
	2021	2020
Net sales—Westlake	\$ 219,803	\$ 214,828

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

During February and March 2021, due to the severe winter storm, OpCo's ethylene production facilities in the region experienced disruptions to their operations, resulting in lost production and additional maintenance and other costs. OpCo declared force majeure under the Ethylene Supply Agreement. As a result of the force majeure, the Partnership recognized a buyer deficiency fee of \$5,500 in the three months ended March 31, 2021, as a component of net sales, representing fixed margin and unavoids operating and maintenance capital expenditures and maintenance expenses during the force majeure events. The buyer deficiency is an estimate based on OpCo's anticipated 2021 ethylene production. Additionally, under the Ethylene Sales Agreement, if production costs billed to Westlake on an annual basis are less than 95% of the actual production costs incurred by OpCo during the period, OpCo is entitled to recover the shortfall in the subsequent year. During the three months ended March 31, 2021, based on the additional costs incurred during the force majeure events, the Partnership recognized a shortfall of \$4,178 as a component of net sales.

During 2020, the Lake Charles Petro 1 and Petro 2 facilities were impacted by Hurricanes Laura and Delta, which resulted in force majeure events under the Ethylene Sales Agreement. As a result of the force majeure events, the Partnership recognized a buyer deficiency fee of \$69,555 as a component of net sales in 2020. Payment for the buyer deficiency fee was received by the Partnership in January 2021.

Cost of Sales from Related Parties

Charges for goods and services purchased by the Partnership and OpCo from Westlake and included in cost of sales relate primarily to feedstock purchased under the Feedstock Supply Agreement and services provided under the Services and Secondment Agreement.

Charges from related parties in cost of sales were as follows:

	Three Months Ended March 31,	
	2021	2020
Feedstock purchased from Westlake and included in cost of sales	\$ 82,116	\$ 59,638
Other charges from Westlake and included in cost of sales	31,842	24,100
Total	\$ 113,958	\$ 83,738

Services from Related Parties Included in Selling, General and Administrative Expenses

Charges for services purchased by the Partnership from Westlake and included in selling, general and administrative expenses primarily relate to services Westlake performs on behalf of the Partnership under the Omnibus Agreement, including the Partnership's finance, legal, information technology, human resources, communication, ethics and compliance and other administrative functions.

Charges from related parties included within selling, general and administrative expenses were as follows:

	Three Months Ended March 31,	
	2021	2020
Services received from Westlake and included in selling, general and administrative expenses	\$ 7,912	\$ 5,115

Goods and Services from Related Parties Capitalized as Assets

Charges for goods and services purchased by the Partnership and OpCo from Westlake which were capitalized as assets relate primarily to the services of Westlake employees under the Services and Secondment Agreement.

Charges from related parties for goods and services capitalized as assets were as follows:

	Three Months Ended March 31,	
	2021	2020
Goods and services purchased from Westlake and capitalized as assets	\$ 403	\$ 480

(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

Receivable under the Investment Management Agreement

On August 1, 2017, the Partnership, OpCo and Westlake executed an investment management agreement (the "Investment Management Agreement") that authorized Westlake to invest the Partnership's and OpCo's excess cash with Westlake for a term of up to a maximum of nine months. Per the terms of the Investment Management Agreement, the Partnership earns a market return plus five basis points and Westlake provides daily availability of the invested cash to meet any liquidity needs of the Partnership or OpCo. Accrued interest of \$67 and \$56 was included in the receivable under the Investment Management Agreement balance at March 31, 2021 and December 31, 2020, respectively. Total interest earned related to the Investment Management Agreement was \$67 and \$587 for the three months ended March 31, 2021 and 2020, respectively.

The Partnership's receivable under the Investment Management Agreement was as follows:

	March 31, 2021	December 31, 2020
Receivable under the Investment Management Agreement	\$ 187,239	\$ 123,228

Accounts Receivable from Related Parties

The Partnership's accounts receivable from Westlake result primarily from ethylene sales to Westlake, the buyer deficiency fee and the shortfall recognized under the Ethylene Sales Agreement, as discussed above under "Sales to Related Parties." The buyer deficiency fee and the shortfall recognized in the three months ended March 31, 2021 are scheduled to be received by the Partnership after the end of 2021.

The Partnership's accounts receivable from Westlake were as follows:

	March 31, 2021	December 31, 2020
Accounts receivable—Westlake	\$ 50,969	\$ 108,028

Accounts Payable to Related Parties

The Partnership's accounts payable to Westlake result primarily from feedstock purchases under the Feedstock Supply Agreement and services provided under the Services and Secondment Agreement and the Omnibus Agreement.

The related party accounts payable balances were as follows:

	March 31, 2021	December 31, 2020
Accounts payable—Westlake	\$ 11,921	\$ 7,855

Related Party Leases

OpCo is obligated to Westlake under various long-term and short-term noncancelable operating leases, primarily related to rail car leases and land. Operating lease rentals paid to Westlake for such leases were \$686 and \$670 for the three months ended March 31, 2021 and 2020, respectively, and reflected in other charges from Westlake that are included in cost of sales.

OpCo has two site lease agreements with Westlake, each of which has a term of 50 years. Pursuant to the site lease agreements, OpCo pays Westlake one dollar per site per year.

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

Debt Payable to Related Parties

See Note 9 for a description of related party debt payable balances.

Interest on related party debt payable balances for the three months ended March 31, 2021 and 2020 was \$2,236 and \$3,950, respectively. Interest on related party debt payable is presented as interest expense—Westlake in the consolidated statements of operations. At March 31, 2021 and December 31, 2020, accrued interest on related party debt was \$2,236 and \$2,336, respectively, and is reflected as a component of accrued liabilities in the consolidated balance sheets.

Debt payable to related parties was as follows:

	March 31, 2021	December 31, 2020
Long-term debt payable to Westlake	\$ 399,674	\$ 399,674

Major Customer and Concentration of Credit Risk

During the three months ended March 31, 2021 and 2020, Westlake accounted for approximately 82.0% and 85.7%, respectively, of the Partnership's net sales.

Other

See Note 7 above for an additional related party transaction.

9. Long-term Debt Payable to Westlake

Long-term debt payable to Westlake consists of the following:

	March 31, 2021	December 31, 2020
OpCo Revolver (variable interest rate of London Interbank Offered Rate ("LIBOR") plus 2.0%, scheduled maturity of September 25, 2023)	\$ 22,619	\$ 22,619
MLP Revolver (variable interest rate of LIBOR plus 2.0%, scheduled maturity of March 19, 2023)	377,055	377,055
	\$ 399,674	\$ 399,674

The weighted average interest rate on all long-term debt was 2.2% at March 31, 2021 and December 31, 2020.

As of March 31, 2021, the Partnership was in compliance with all of the covenants under the OpCo Revolver and the MLP Revolver.

10. Fair Value Measurements

The Partnership reports certain assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Under the accounting guidance for fair value measurements, inputs used to measure fair value are classified in one of three levels:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

WESTLAKE CHEMICAL PARTNERS LP
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS—Continued
(Unaudited)
(in thousands of dollars, except unit amounts and per unit data)

The Partnership has financial assets and liabilities subject to fair value measures. These financial assets and liabilities include cash and cash equivalents, accounts receivable, net, accounts payable and long-term debt payable to Westlake, all of which are recorded at carrying value. The amounts reported in the consolidated balance sheets for accounts receivable, net and accounts payable approximate their fair value due to the short maturities of these instruments. The carrying and fair values of the Partnership's long-term debt at March 31, 2021 and December 31, 2020 are summarized in the table below. The Partnership's long-term debt includes the OpCo Revolver and the MLP Revolver at March 31, 2021. The fair value of debt is determined based on the present value of expected future cash flows using a discounted cash flow methodology. Because the Partnership's valuation methodology used for long-term debt requires the use of significant unobservable inputs, the inputs used to measure the fair value of the Partnership's long-term debt are classified as Level 3 within the fair value hierarchy. Inputs used to estimate the fair values of the Partnership's long-term debt include the selection of an appropriate discount rate.

	March 31, 2021		December 31, 2020	
	Carrying Value	Fair Value	Carrying Value	Fair Value
OpCo Revolver	\$ 22,619	\$ 22,817	\$ 22,619	\$ 23,301
MLP Revolver	377,055	377,520	377,055	383,284

11. Supplemental Information

Accrued and Other Liabilities

Accrued and other liabilities were \$18,049 and \$18,768 at March 31, 2021 and December 31, 2020, respectively. Accrued taxes, accrued maintenance expense and accrued interest, which are components of accrued liabilities, were \$3,120, \$6,215 and \$2,236, respectively, at March 31, 2021 and \$6,207, \$3,905 and \$2,336, respectively, at December 31, 2020. No other component of accrued liabilities was more than five percent of total current liabilities.

Non-cash Investing Activity

The non-cash investing activities related to accruals for capital expenditures were \$582 and \$20 for the three months ended March 31, 2021 and 2020, respectively.

12. Commitments and Contingencies

The Partnership is subject to environmental laws and regulations that can impose civil and criminal sanctions and that may require the Partnership to mitigate the effects of contamination caused by the release or disposal of hazardous substances into the environment. These laws include the federal Clean Air Act, the federal Water Pollution Control Act, the Resource Conservation and Recovery Act ("RCRA"), the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), the Toxic Substances Control Act and various other federal, state and local laws and regulations. Under CERCLA, an owner or operator of property may be held strictly liable for remediating contamination without regard to whether that person caused the contamination, and without regard to whether the practices that resulted in the contamination were legal at the time they occurred. Because the Partnership's production sites have a history of industrial use, it is impossible to predict precisely what effect these legal requirements will have on the Partnership. Westlake will indemnify the Partnership for liabilities that occurred or existed prior to August 4, 2014.

The Partnership is involved in various legal proceedings incidental to the conduct of its business. The Partnership does not believe that any of these legal proceedings will have a material adverse effect on its financial condition, results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This Management's Discussion and Analysis of Financial Condition and Results of Operations section should be read in conjunction with the accompanying consolidated financial statements and the notes thereto and the consolidated financial statements and notes thereto included in Westlake Chemical Partners LP's annual report on Form 10-K for the fiscal year ended December 31, 2020 (the "2020 Form 10-K"), as filed with the SEC on March 2, 2021. Unless otherwise indicated, references in this report to "we," "our," "us" or like terms, refer to Westlake Chemical Partners LP (the "Partnership"), Westlake Chemical OpCo LP ("OpCo") and Westlake Chemical OpCo GP LLC ("OpCo GP"). References to "Westlake" refer to Westlake Chemical Corporation and its consolidated subsidiaries other than the Partnership, OpCo GP and OpCo. The following discussion contains forward-looking statements. Please read "Forward-Looking Statements" for a discussion of limitations inherent in such statements.

Partnership Overview

We are a Delaware limited partnership formed by Westlake to operate, acquire and develop ethylene production facilities and related assets. On August 4, 2014, we closed our initial public offering (the "IPO") of 12,937,500 common units. In connection with the IPO, we acquired a 10.6% interest in OpCo and a 100% interest in OpCo GP, which is the general partner of OpCo. On April 29, 2015, we purchased an additional 2.7% newly-issued limited partner interest in OpCo, resulting in an aggregate 13.3% limited partner interest in OpCo, effective April 1, 2015. The 12,686,115 subordinated units of the Partnership, all of which were previously owned by Westlake, were converted into common units of the Partnership on August 30, 2017. On September 29, 2017, we completed a secondary public offering of 5,175,000 common units and purchased an additional 5.0% newly-issued limited partner interest in OpCo, resulting in an aggregate 18.3% limited partner interest in OpCo, effective July 1, 2017. On March 29, 2019, we completed a private placement of 2,940,818 common units and used the net proceeds to purchase an additional 4.5% interest in OpCo, effective January 1, 2019, resulting in us owning an aggregate 22.8% limited partner interest in OpCo.

Our sole revenue generating asset is our 22.8% limited partner interest in OpCo, a limited partnership formed by Westlake and us in anticipation of the IPO to own and operate an ethylene production business. We control OpCo through our ownership of its general partner. Westlake retains the remaining 77.2% limited partner interest in OpCo as well as a significant interest in us through its ownership of our general partner, 40.1% of our limited partner units (consisting of 14,122,230 common units) and our incentive distribution rights. OpCo's assets include (1) two ethylene production facilities ("Petro 1" and "Petro 2" and, collectively, "Lake Charles Olefins") at Westlake's Lake Charles, Louisiana site; (2) one ethylene production facility ("Calvert City Olefins") at Westlake's Calvert City, Kentucky site; and (3) a 200-mile common carrier ethylene pipeline (the "Longview Pipeline") that runs from Mont Belvieu, Texas to Westlake's Longview, Texas facility.

How We Generate Revenue

We generate revenue primarily by selling ethylene and the resulting co-products we produce. OpCo and Westlake have entered into an ethylene sales agreement (the "Ethylene Sales Agreement") pursuant to which we generate a substantial majority of our revenue. The Ethylene Sales Agreement is a long-term, fee-based agreement with a minimum purchase commitment and includes variable pricing based on OpCo's actual feedstock and natural gas costs and estimated other costs of producing ethylene (including OpCo's estimated operating costs and a five-year average of OpCo's expected future maintenance capital expenditures and other turnaround expenditures based on OpCo's planned ethylene production capacity for the year), plus a fixed margin per pound of \$0.10 less revenue from co-products sales. Pursuant to the Ethylene Sales Agreement, Westlake's obligation to pay for the annual minimum commitment (95% of OpCo's budgeted ethylene production), which is measured on an annual basis, is not reduced for the first 45 days of a force majeure event, but is reduced for the portion of a force majeure event extending beyond the 45th day. In the event of a force majeure event, we recognize buyer deficiency fees representing fixed margin and unavailed operating and maintenance capital expenditures and maintenance expenses associated with ethylene that OpCo would have produced and is not expected to be produced based on anticipated production. Payment for the buyer deficiency fee is scheduled to be received by the Partnership after the conclusion of the year.

Westlake has an option to take 95% of volumes in excess of the minimum commitment on an annual basis under the Ethylene Sales Agreement if we produce more than our planned production. Under the Ethylene Sales Agreement, the price for the sale of such excess ethylene to Westlake is based on a formula similar to that used for the minimum purchase commitment, with the exception of certain fixed costs. In addition, under the Ethylene Sales Agreement, if production costs billed to Westlake on an annual basis are less than 95% of the actual production costs incurred by OpCo during the contract year, OpCo is entitled to recover the shortfall in such production costs (proportionate to the volume sold to Westlake) in the subsequent year ("Shortfall"). The Shortfall is generally recognized during the period in which the related operating, maintenance or turnaround activities occur.

Operating Expenses, Maintenance Capital Expenditures and Turnaround Costs

Our management seeks to maximize the profitability of our operations by effectively managing operating expenses, maintenance capital expenditures and turnaround costs. Our operating expenses are comprised primarily of feedstock costs and natural gas, labor expenses (including contractor services), utility costs (other than natural gas) and turnaround and maintenance expenses. With the exception of feedstock, including natural gas, and utilities-related expenses, operating expenses generally remain relatively stable across broad ranges of production volumes but can fluctuate from period to period depending on the circumstances, particularly maintenance and turnaround activities. Our maintenance capital expenditures and turnaround costs are comprised primarily of maintenance of our ethylene production facilities and the amortization of capitalized turnaround costs. These capital expenditures relate to the maintenance and integrity of our facilities. We capitalize the costs of major maintenance activities, or turnarounds, and amortize the costs over the period until the next planned turnaround of the affected facility.

Operating expenses, maintenance capital expenditures and turnaround costs are built into the price per pound of ethylene charged to Westlake under the Ethylene Sales Agreement. Because the expenses other than feedstock costs and natural gas are based on forecasted amounts and remain a fixed component of the price per pound of ethylene sold under the Ethylene Sales Agreement for any given 12-month period, our ability to manage operating expenses, maintenance expenditures and turnaround cost may directly affect our profitability and cash flows. The impact on profitability is partially mitigated by the fact that we generally recognize any Shortfall as revenue in the period such costs and expenses are incurred. We seek to manage our operating and maintenance expenses on our ethylene production facilities by scheduling maintenance and turnarounds over time to avoid significant variability in our operating margins and minimize the impact on our cash flows, without compromising our commitment to safety and environmental stewardship. In addition, we reserve cash on an annual basis from what we would otherwise distribute to minimize the impact of turnaround costs in the year of incurrence. The purchase price under the Ethylene Sales Agreement is not designed to cover capital expenditures for expansions.

MLP Distributable Cash Flow and EBITDA

The body of accounting principles generally accepted in the United States is commonly referred to as "GAAP." For this purpose, a non-GAAP financial measure is generally defined by the Securities and Exchange Commission ("SEC") as a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that (1) excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the registrant; or (2) includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. We use the non-GAAP measures of MLP distributable cash flow and EBITDA to analyze our performance. We define distributable cash flow as net income plus depreciation, amortization and disposition of property, plant and equipment, less contributions for turnaround reserves, maintenance capital expenditures and mark-to-market adjustment on derivative contracts. We define MLP distributable cash flow as distributable cash flow less distributable cash flow attributable to Westlake's noncontrolling interest in OpCo and distributions attributable to the incentive distribution rights holder. MLP distributable cash flow does not reflect changes in working capital balances. We define EBITDA as net income before interest expense, income taxes, depreciation and amortization. We use each of MLP distributable cash flow and EBITDA to analyze our performance. Fees for a buyer deficiency and Shortfall are included in net income in the periods in which they are recognized. MLP distributable cash flow and EBITDA are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess our operating performance as compared to other publicly-traded partnerships; our ability to incur and service debt and fund capital expenditures; and the viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

MLP distributable cash flow is not a substitute for the GAAP measures of net income and net cash provided by operating activities. MLP distributable cash flow has important limitations as an analytical tool because it excludes some but not all items that affect net income and net cash provided by operating activities. EBITDA is not a substitute for the GAAP measures of net income, income from operations and net cash provided by operating activities. In addition, it should be noted that companies calculate EBITDA differently and, therefore, EBITDA as presented for us may not be comparable to EBITDA reported by other companies. EBITDA has material limitations as a performance measure because it excludes interest expense, depreciation and amortization, and income taxes. Reconciliations for each of MLP distributable cash flow and EBITDA are included in the "Results of Operations" section below.

Significant Developments Affecting Industry Conditions and Our Business

COVID-19, Industry Conditions and Our Business

On March 11, 2020, the World Health Organization declared the ongoing coronavirus (COVID-19) outbreak a pandemic and recommended containment and mitigation measures worldwide. The pandemic has resulted in widespread adverse impacts on the global economy and on our employees, customers and suppliers. We have not experienced significant disruptions to our business operations and do not expect to experience significant disruptions to our business operations resulting from COVID-19, primarily due to the fact that 95% of our production is sold to Westlake on a take-or-pay contract.

Our first priority in our response to this crisis has been the health and safety of our operators, who are seconded to us by Westlake, and those of our customers and vendors. Westlake has implemented preventative measures and developed corporate and regional response plans to minimize unnecessary risk of exposure. We and Westlake have modified certain business practices (including those related to employee travel, employee work locations and employee work practices) to conform to government restrictions and best practices encouraged by the Center for Disease Control and Prevention, the World Health Organization and other governmental and regulatory authorities. We and Westlake have implemented strategies to reduce costs, increase operational efficiencies and lower capital spending. We also deferred the planned turnaround at OpCo's Petro 2 ethylene unit and associated maintenance cost from 2020 to the second half of 2021. The turnaround is expected to last approximately 60 days.

February Winter Storm

In February 2021, large parts of the southern United States, including Louisiana and Kentucky, experienced a severe winter storm. Due to the severe winter storm, OpCo's ethylene production facilities in the region experienced disruption to their operations, resulting in lost production and additional maintenance costs. OpCo declared force majeure under the Ethylene Supply Agreement during February and March 2021. As a result of the force majeure events, we recognized a buyer deficiency fee of \$5.5 million and a Shortfall of \$4.2 million in the first quarter of 2021 that are scheduled to be received by the Partnership after the end of 2021. The buyer deficiency fee is associated with ethylene that OpCo would have produced and is not expected to be produced in 2021 based on anticipated production. OpCo's production facilities have since resumed production.

Results of Operations

	Three Months Ended March 31,	
	2021	2020
(dollars in thousands)		
Revenue		
Net sales—Westlake	\$ 219,803	\$ 214,828
Net co-product, ethylene and other sales—third parties	48,404	35,721
Total net sales	268,207	250,549
Cost of sales	180,508	147,001

Depreciation and amortization	27,542	26,031
Other income, net	7	585
EBITDA	<u>\$ 106,575</u>	<u>\$ 123,968</u>

Summary

For the quarter ended March 31, 2021, net income was \$76.6 million on net sales of \$268.2 million. This represents a decrease in net income of \$17.2 million as compared to net income of \$93.8 million on net sales of \$250.5 million for the quarter ended March 31, 2020. Net income attributable to the Partnership for the first quarter of 2021 was \$15.1 million as compared to \$17.7 million for the first quarter of 2020, a decrease of \$2.6 million. Net income and net income attributable to the Partnership for the first quarter of 2021 as compared to the first quarter of 2020 were lower primarily due to lower sales volumes to Westlake and third parties and higher feedstock and conversion costs. The decreases were partially offset by higher sales prices for ethylene sold to Westlake per the terms of the Ethylene Sales Agreement and to third parties, as well as the buyer deficiency fee of \$5.5 million and the Shortfall of \$4.2 million recognized in the first quarter of 2021 due to the force majeure events in February and March 2021 resulting from the severe winter storm. Net sales for the first quarter of 2021 increased by \$17.7 million as compared to net sales for the first quarter of 2020, mainly due to higher sales prices to Westlake per the terms of the Ethylene Sales Agreement and to third parties, as well as the buyer deficiency fee and the Shortfall recognized during the first quarter of 2021, partially offset by lower sales volumes to Westlake and third parties during the first quarter of 2021. Income from operations was \$79.0 million for the first quarter of 2021 as compared to \$97.4 million for the first quarter of 2020. Income from operations for the first quarter of 2021 decreased mainly as a result of decreased sales volumes to Westlake and third parties, increased selling, general and administrative costs and higher feedstock and conversion costs, as compared to the first quarter of 2020, partially offset by higher sales prices for ethylene sold to Westlake and third parties, as well as the buyer deficiency fee and the Shortfall recognized during the period.

RESULTS OF OPERATIONS

First Quarter 2021 Compared with First Quarter 2020

Net Sales. Total net sales increased by \$17.7 million, or 7.1%, to \$268.2 million in the first quarter of 2021 from \$250.5 million in the first quarter of 2020. The increase in net sales in the first quarter of 2021 was primarily due to higher sales prices to Westlake per the terms of the Ethylene Sales Agreement and to third parties, the buyer deficiency fee of \$5.5 million and the Shortfall of \$4.2 million recognized during the period, partially offset by lower sales volumes to Westlake and third parties during the first quarter of 2021. The average sales price in the first quarter of 2021 contributed to a 22.2% increase in net sales, primarily due to higher ethylene sales prices to Westlake per the terms of the Ethylene Sales Agreement and to third parties. The lower sales volume contributed to a 19.0% decrease in net sales in the first quarter of 2021 compared to the first quarter of 2020. The decrease in sales volumes for the first quarter of 2021 was primarily due to the force majeure events as a result of the severe winter storm that impacted OpCo's production facilities.

Gross Profit. Gross profit decreased to \$87.7 million for the first quarter of 2021 from \$103.5 million for the first quarter of 2020. The gross profit margin in the first quarter of 2021 was 32.7%, as compared to 41.3% for the first quarter of 2020. The first quarter 2021 gross profit margin was lower mainly due to increased feedstock and conversion costs and lower sales volumes to third parties, partially offset by higher prices for ethylene sold to Westlake and third parties compared to the first quarter of 2020.

Selling, General and Administrative Expenses. Selling, general and administrative expenses increased by \$2.5 million, or 40.3%, to \$8.7 million in the first quarter of 2021 as compared to \$6.2 million in the first quarter of 2020. The increase in the first quarter of 2021 was mainly attributable to higher service costs as compared to the first quarter of 2020.

Interest Expense. Interest expense decreased by \$1.8 million to \$2.2 million in the first quarter of 2021 from \$4.0 million in the first quarter of 2020, largely due to a lower average interest rate on debt.

Other Income, net. Other income, net in the first quarter of 2021 decreased by \$0.6 million, primarily due to a decrease in interest income earned under the Investment Management Agreement as a result of lower average interest rates.

MLP Distributable Cash Flow. MLP distributable cash flow decreased by \$2.1 million to \$16.2 million in the first quarter of 2021 from \$18.3 million in the first quarter of 2020. The decrease in the first quarter of 2021, as compared to the prior-year period, was primarily attributable to the lower earnings at OpCo resulting from the severe winter storm as well as contributions for turnaround reserves.

EBITDA. EBITDA decreased by \$17.4 million to \$106.6 million in the first quarter of 2021 from \$124.0 million in the first quarter of 2020. The decrease, as compared to the prior-year period, was primarily due to lower sales volumes to Westlake and third parties as a result of lower production due to the severe winter storm in February 2021 and higher feedstock and conversion costs, partially offset by higher sales prices for ethylene sold to Westlake per the terms of the Ethylene Sales Agreement and to third parties, as well as the buyer deficiency fee and the Shortfall recognized in the first quarter of 2021.

CASH FLOW DISCUSSION FOR THE THREE MONTHS ENDED MARCH 31, 2021 AND 2020

Operating Activities

Operating activities provided cash of \$155.4 million in the first three months of 2021 compared to cash provided by operating activities of \$111.0 million in the first three months of 2020. The \$44.4 million increase in cash flows from operating activities was mainly due to an increase in cash provided for working capital, partially offset by a decrease in income from operations during the three months ended March 31, 2021 as compared to the prior-year period. Changes in components of working capital, which we define for the purposes of this cash flow discussion as accounts receivable, net—Westlake, accounts receivable, net—third parties, inventories, prepaid expenses and other current assets less accounts payable—Westlake, accounts payable—third parties and accrued liabilities, provided cash of \$51.5 million in the first three months of 2021 as compared to \$8.7 million of cash used in the first three months of 2020, resulting in an overall favorable change of \$60.2 million. The favorable change in working capital was mainly attributable to a favorable change in Westlake, net accounts receivable due to the receipt of the buyer deficiency fee related to the force majeure events in 2020 by the Partnership in January 2021, partially offset by unfavorable changes in accounts receivable, net—third parties, accounts payable and accrued and other liabilities.

Investing Activities

Net cash used for investing activities during the first three months of 2021 was \$76.6 million as compared to net cash used for investing activities of \$11.0 million in the first three months of 2020, mainly due to increased net cash used under the Investment Management Agreement in the first three months of 2021, as compared to the prior-year period. Capital expenditures during the first three months of 2021 and 2020 were primarily related to projects to improve production capacity or reduce costs, maintenance and safety and environmental projects at our facilities.

Financing Activities

Net cash used for financing activities during the first three months of 2021 was \$78.7 million as compared to net cash used by financing activities of \$95.8 million in the first three months of 2020. The outflows during the first three months of 2021 were related to the distribution of \$62.1 million to Westlake and of \$16.6 million to other unitholders by the Partnership. The cash outflows during the first three months of 2020 were related to the distribution of \$79.2 million to Westlake and of \$16.6 million to other unitholders by the Partnership.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity and Financing Arrangements

Pursuant to the terms of the ATM Agreement, entered in October 2018 and amended in February 2020, among the Partnership and various investment banks, the Partnership may offer and sell the Partnership's common units from time to time to or through the Managers, as the Partnership's sales agents or as principals, having an aggregate offering amount of up to \$50.0 million (the "ATM Program"). The Partnership intends to use the net proceeds of sales of the common units, if any, for general partnership purposes, including the funding of potential drop-downs and other acquisitions. No common units had been issued under the ATM Program as of March 31, 2021.

Based on the terms of our cash distribution policy, we expect that we will distribute to our partners most of the excess cash generated by our operations. To the extent we do not generate sufficient cash flow to fund capital expenditures, we expect to fund them primarily from external sources, including borrowing directly from Westlake, as well as future issuances of equity and debt interests.

The Partnership maintains separate bank accounts, but Westlake continues to provide treasury services on our behalf under the Services and Secondment Agreement. Our sources of liquidity include cash generated from operations, the OpCo Revolver, the MLP Revolver and, if necessary and possible under then current market conditions, the issuance of additional equity interests or debt. We believe that cash generated from these sources will be sufficient to meet our short-term working capital requirements and long-term capital expenditure requirements and to make quarterly cash distributions. Westlake may also provide other direct and indirect financing to us from time to time, although it is not required to do so.

In order to fund non-annual turnaround expenditures, we cause OpCo to reserve an amount for turnaround costs during each twelve-month period designed to cover future turnaround activities. Each of OpCo's ethylene production facilities requires turnaround maintenance approximately every five years. By reserving additional cash annually, we intend to reduce the variability in OpCo's cash flow. Westlake's purchase price for ethylene purchased under the Ethylene Sales Agreement includes a component (adjusted annually) designed to cover, over the long term, substantially all of OpCo's turnaround expenditures.

Westlake's credit facility and various indentures do not prevent OpCo from making distributions to us.

On May 3, 2021, the board of directors of Westlake Chemical Partners GP LLC, our general partner, approved a quarterly distribution of \$0.4714 per unit payable on May 27, 2021 to unitholders of record as of May 13, 2021, which equates to a total amount of approximately \$16.6 million per quarter, or approximately \$66.4 million per year in aggregate, based on the number of common units outstanding on March 31, 2021. We do not have a legal or contractual obligation to pay distributions on a quarterly basis or any other basis at our minimum quarterly distribution rate or any other rate.

Capital Expenditures

Westlake has historically funded expansion capital expenditures related to Lake Charles Olefins and Calvert City Olefins. Total capital expenditures for the three months ended March 31, 2021 and 2020 were \$12.7 million and \$12.0 million, respectively. No funding was required by OpCo to fund capital expenditures during the three months ended March 31, 2021 and 2020. We expect that Westlake will loan additional cash to OpCo to fund its expansion capital expenditures in the future, but Westlake is under no obligation to do so.

Cash and Cash Equivalents

As of March 31, 2021, our cash and cash equivalents totaled \$17.3 million. In addition, we have cash invested under the Investment Management Agreement (as described below) and a revolving credit facility with Westlake available to supplement cash if needed, as described under "Indebtedness" below.

In August 2017, the Partnership, OpCo and Westlake executed the Investment Management Agreement that authorized Westlake to invest the Partnership's and OpCo's excess cash with Westlake for a term of up to a maximum of nine months. Per the terms of the Investment Management Agreement, the Partnership earns a market return plus five basis points and Westlake provides daily availability of the invested cash to meet any liquidity needs of the Partnership or OpCo. The Partnership had \$187.2 million of cash invested under the Investment Management Agreement at March 31, 2021.

Indebtedness

OpCo Revolver

In connection with the IPO, OpCo entered into a \$600.0 million revolving credit facility with Westlake, as amended in August and December 2017 and March 2020 (the "OpCo Revolver") that may be used to fund growth projects and working capital needs. The OpCo Revolver is scheduled to mature on September 25, 2023. As of March 31, 2021, outstanding borrowings under the OpCo Revolver totaled \$22.6 million and bore interest at the LIBOR rate plus 2.0%, which is accrued in arrears quarterly.

MLP Revolver

In 2015, we entered into a senior, unsecured revolving credit agreement with an affiliate of Westlake (the "MLP Revolver"). The MLP Revolver has a borrowing capacity of \$600.0 million and is scheduled to mature in 2023. On March 29, 2019, the Partnership borrowed \$123.5 million under the MLP Revolver to partially fund the purchase of an additional 4.5% interest in OpCo. On March 19, 2020, the Partnership entered into an amendment to the MLP Revolver, to extend the maturity date to March 19, 2023 and add a phase-out provision for LIBOR, which is to be replaced by an alternate benchmark rate. Borrowings under the MLP Revolver bear interest at a variable rate of either (a) LIBOR plus 2.0% or, if LIBOR is no longer available, (b) Alternate Base Rate plus 1.0%. The MLP Revolver provides that we may pay all or a portion of the interest on any borrowings in kind, in which case any such amounts would be added to the principal amount of the loan. The MLP Revolver requires that we maintain a consolidated leverage ratio of either (1) during any one-year period following certain types of acquisitions (including acquisitions of additional interests in OpCo), 5.50:1.0 or less, or (2) during any other period, 4.50:1.00 or less. The MLP Revolver also contains certain other customary covenants. The repayment of borrowings under the MLP Revolver is subject to acceleration upon the occurrence of an event of default. As of March 31, 2021, outstanding borrowings under the MLP Revolver totaled \$377.1 million and bore interest at the LIBOR rate plus 2.0%, which is accrued in arrears quarterly. We intend to use the MLP Revolver to purchase additional limited partnership interests in OpCo in the future, in the event OpCo desires to sell such additional interests to us, for other acquisitions and for general corporate purposes.

Off-Balance Sheet Arrangements

None.

FORWARD-LOOKING STATEMENTS

Certain of the statements contained in this report are forward-looking statements. All statements, other than statements of historical facts, included in this report that address activities, events or developments that we expect, project, believe or anticipate will or may occur in the future are forward-looking statements. Forward-looking statements can be identified by the use of words such as "believes," "intends," "may," "should," "could," "anticipates," "expects," "will" or comparable terminology, or by discussions of strategies or trends. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we cannot give any assurances that these expectations will prove to be correct. Forward-looking statements relate to matters such as:

- the amount of ethane that we are able to process, which could be adversely affected by, among other things, operating difficulties;
- the volume of ethylene that we are able to sell;
- the price at which we are able to sell ethylene;
- industry market outlook, including prices and margins in third-party ethylene and co-products sales;
- widespread outbreak of an illness or any other communicable disease, or any other public health crisis, including the COVID-19 pandemic and efforts to contain its transmission;
- our plans and Westlake's plans to respond to the challenges presented by the COVID-19 epidemic, as well as the timing and deferral of the planned turnaround at OpCo's Petro 2 ethylene unit;
- the parties to whom we will sell ethylene and on what basis;
- volumes of ethylene that Westlake may purchase, in addition to the minimum commitment under the Ethylene Sales Agreement;
- timing, funding and results of capital expenditures;
- our intended quarterly distributions and the manner of making such distributions;
- our ability to meet our liquidity needs;
- timing of and amount of capital expenditures;
- the Partnership's At-the-Market program and the use of any net proceeds from any sales under that program;
- potential loans from Westlake to OpCo to fund OpCo's expansion capital expenditures in the future;
- expected mitigation of exposure to commodity price fluctuations;
- turnaround activities and the variability of OpCo's cash flow;
- receipt of any buyer deficiency fee under the Ethylene Sales Agreement;
- compliance with present and future environmental regulations and costs associated with environmentally related penalties, capital expenditures, remedial actions and proceedings, including any new laws, regulations or treaties that may come into force to limit or control carbon dioxide and other greenhouse gas emissions or to address other issues of climate change;
- our ability to receive indemnification from Westlake for environmental and other losses; and
- effects of pending legal proceedings.

We have based these statements on assumptions and analysis in light of our experience and perception of historical trends, current conditions, expected future developments and other factors we believe were appropriate in the circumstances when the statements were made. Forward-looking statements by their nature involve substantial risks and uncertainties that could significantly impact expected results, and actual future results could differ materially from those described in such statements. These statements are subject to a number of assumptions, risks and uncertainties, including those described under "Risk Factors" in the 2020 Form 10-K and the following:

- general economic and business conditions;
- the cyclical nature of the chemical industry;
- the availability, cost and volatility of raw materials and energy;
- low crude oil prices reducing the cost advantage of ethane-based ethylene producers;
- uncertainties associated with the United States and worldwide economies, including those due to political tensions and unrest in the Middle East and elsewhere;
- uncertainties associated with pandemic infectious diseases, particularly COVID-19;
- current and potential governmental regulatory actions in the United States and regulatory actions and political unrest in other countries, including environmental regulations;
- industry production capacity and operating rates;
- the supply/demand balance for our products;
- competitive products and pricing pressures;
- instability in the credit and financial markets;
- access to capital markets;
- terrorist acts;
- operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, labor difficulties, transportation interruptions, spills and releases and other environmental risks);
- changes in laws or regulations;
- technological developments;
- our ability to integrate acquired businesses;
- foreign currency exchange risks;
- our ability to implement our business strategies; and
- creditworthiness of our customers.

Many of these factors are beyond our ability to control or predict. Any of the factors, or a combination of these factors, could materially affect our future results of operations and the ultimate accuracy of the forward-looking statements. These forward-looking statements are not guarantees of our future performance, and our actual results and future developments may differ materially from those projected in the forward-looking statements. Management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels. Every forward-looking statement speaks only as of the date of the particular statement, and we undertake no obligation to publicly update or revise any forward-looking statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Commodity Price Risk

A substantial portion of the Partnership's products and raw materials are commodities whose prices fluctuate as market supply and demand fundamentals change. However, our direct exposure to commodity price risk is limited to approximately 5.0% of our total ethylene production, which is the portion sold to third parties. We believe we have substantially mitigated our indirect exposure to commodity price fluctuation during the term of the Ethylene Sales Agreement through the minimum commitment and the cost-plus based pricing. Additionally, we may use derivative instruments to reduce price volatility risk on feedstocks and ethylene associated with the production and sales to third parties. We did not have any open derivative position at March 31, 2021.

Interest Rate Risk

We are exposed to interest rate risk with respect to our outstanding debt, all of which is variable rate debt. At March 31, 2021, we had total variable rate debt of \$399.7 million outstanding, all of which was owed to wholly-owned subsidiaries of Westlake, and currently accrues interest at a variable rate of LIBOR plus 200 basis points. On March 19, 2020, the Partnership entered into an amendment to the MLP Revolver to extend the maturity date to March 19, 2023 and add a phase-out provision for LIBOR, which is to be replaced by an alternate benchmark rate. The amended credit agreement bears interest at a variable rate of either (a) LIBOR plus 2.0% or, if LIBOR is no longer available, (b) Alternate Base Rate plus 1.0%. The weighted average variable interest rate of our debt as of March 31, 2021 was 2.2%. We will continue to be subject to interest rate risk with respect to our variable rate debt as well as the risk of higher interest cost if and when this debt is refinanced. A hypothetical increase in our average interest rate on variable rate debt by 100 basis points would increase our annual interest expense by approximately \$4.0 million, based on the March 31, 2021 debt balance.

LIBOR is used as a reference rate for all of our outstanding variable rate debt as of March 31, 2021. The phase-out of LIBOR is set to commence at the end of 2021 and conclude by June 30, 2023. We are currently reviewing how LIBOR phase-out will affect us, but we do not expect the impact to be material.

Item 4. Controls and Procedures

We carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures pursuant to Rules 13a-15 or 15d-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of the end of the period covered by this report. Based upon that evaluation, our President and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that our disclosure controls and procedures are effective with respect to (i) the accumulation and communication to our management, including our Chief Executive Officer and our Chief Financial Officer, of information required to be disclosed by us in the reports that we submit under the Exchange Act, and (ii) the recording, processing, summarizing and reporting of such information within the time periods specified in the SEC's rules and forms.

There were no changes in our internal control over financial reporting that occurred during the three months ended March 31, 2021 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The 2020 Form 10-K, filed on March 2, 2021, contained a description of various legal proceedings in which we are involved, including environmental proceedings. See below and Note 12 to the unaudited consolidated financial statements within this Quarterly Report on Form 10-Q for a discussion on legal proceedings, which information is incorporated by reference herein.

Under the Omnibus Agreement, Westlake Chemical Corporation ("Westlake") has agreed to indemnify the Partnership for certain environmental and other liabilities relating to OpCo's processing facilities and related assets.

Potential Flare Modifications. For several years, the Environmental Protection Agency ("EPA") has been conducting an enforcement initiative against petroleum refineries and petrochemical plants with respect to emissions from flares. On April 21, 2014, Westlake received a Clean Air Act Section 114 Information Request from the EPA, which sought information regarding flares at the Calvert City and Lake Charles facilities. The EPA has informed Westlake that the information provided leads the EPA to believe that some of the flares are out of compliance with applicable standards. The EPA has indicated that it is seeking a consent decree that would obligate Westlake to take corrective actions relating to the alleged noncompliance. The Partnership believes the resolution of these matters may require the payment of a monetary sanction in excess of \$300,000. As discussed above, Westlake is expected to fully indemnify us for such costs.

In addition to the matters described above, the Partnership is involved in various legal proceedings incidental to the conduct of its business. The Partnership does not believe that any of these legal proceedings will have a material adverse effect on its financial condition, results of operations or cash flows.

Item 1A. Risk Factors

For a discussion of risk factors, please read Item 1A, "Risk Factors" in the 2020 Form 10-K. There have been no material changes from those risk factors.

CERTIFICATIONS

I, Albert Chao, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Westlake Chemical Partners LP;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
